REASONS FOR ALLOWANCE

1. Claims 1-15 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art of records fails to disclose a method for adjusting a noise floor comprising a step of forming an Exclusive OR product of N least significant bits of the M-bit filtered signal to provide a one-bit supplement signal; adding the supplemental signal to the M-bit filtered signal; and removing L least significant bits from the modified filter signal to produce a dithered as cited in all independent claims 1, 6, and 11.

The closest found prior art is Abt et al. (U.S. 4,965,668). Abt et al. also disclose a method for adjusting a noise of a filtered signal comprising a step of forming Exclusive OR products. However, Abt et al. fail to disclose only an Exclusive OR product of N LSB of filtered signal to provide a one-bit supplement signal as cited above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
